

In the Claims:

1. (Currently Amended) ~~An article~~ A hand-held computer device comprising a processor, memory, and a medium storing software that causes ~~a processor-based computer system~~ the processor to perform the following steps:
 - a. create a time management entry in a time management application; [[and]]
 - b. attach a file stored in the memory to the time management ~~entry~~; entry; and
 - c. display the file on a display of the hand-held computer device.
2. (Currently Amended) The ~~article~~ device of claim 1 wherein the time management entry is an appointment in [[a]] the time management application.
3. (Currently Amended) The ~~article~~ device of claim 1 wherein the time management entry is a task in [[a]] the time management application.
4. (Currently Amended) The ~~article~~ device of claim 3 wherein the time management application is a calendar, and wherein the task is listed in an assignments due list ~~of a~~ managed by the calendar time management application.
5. (Currently Amended) The ~~article~~ device of claim 4 wherein [[the]] time periods in the calendar time management application are class periods.
6. (Currently Amended) The ~~article~~ device of claim 1 wherein the attached ~~file~~ file's association with the time management entry is indicated with a graphical icon in the application

near the time management entry.

7. (Currently Amended) The ~~article~~ device of claim 6 wherein ~~[[the]]~~ a user is able to activate the application associated with the attached file and view the attached file by selecting the graphical icon.

8. (Currently Amended) A ~~system~~, hand-held computer device comprising:

a display;

a processor;

a memory coupled to the processor; and

~~[[a.]]~~ a storage medium coupled to the processor including a software program that, upon execution:

i. creates a time management entry in a time management application; ~~[[and]]~~

ii. attaches a file stored in the memory to the time management ~~entry~~, entry; and

iii. displays the file on the display of the hand-held computer device.

9. (Currently Amended) The ~~system~~ device of claim 8 wherein the time management application is a calendar, and wherein the time management entry is an appointment in ~~[[a]]~~ the calendar time management application.

10. (Currently Amended) The ~~system~~ device of claim 8 wherein the time management application is a calendar, and wherein the time management entry is a task in ~~[[a]]~~ the calendar time management application.

11. (Currently Amended) The ~~system~~ device of claim 10 wherein the task is listed in an assignments due list ~~of a~~ managed by the calendar time management application.

12. (Currently Amended) The ~~system~~ device of claim 11 wherein ~~the~~ time periods in the calendar time management application are class periods.

13. (Currently Amended) The ~~article~~ device of claim 8 wherein the attached ~~file~~ file's association with the time management entry is indicated with a graphical icon in the application near the time management entry.

14. (Currently Amended) The ~~article~~ device of claim 8 wherein ~~the~~ a user is able to activate the application associated with the attached file and view the attached file by selecting the graphical icon.

15. (Currently Amended) A portable computing device, comprising:

a display;

a processor;

a memory coupled to the processor; and

~~[[a.]]~~ a storage medium coupled to the processor including a software program that, upon execution:

i. creates a time management entry in a time management application; ~~[[and]]~~

ii. attaches a file stored in the memory to the time management ~~entry.~~ entry; and

iii. displays the time management entry on the display of the portable computing device.

16. (Currently Amended) The ~~system~~ device of claim [[8]] 15 wherein the time management application is a calendar, and wherein the time management entry is an appointment in [[a]] the calendar time management application.

17. (Currently Amended) The ~~system~~ device of claim [[8]] 15 wherein the time management application is a calendar, and wherein the time management entry is a task in [[a]] the calendar time management application.

18. (Currently Amended) The ~~system~~ device of claim [[10]] 17 wherein the task is listed in an assignments due list of a managed by the calendar time management application.

19. (Currently Amended) The ~~system~~ device of claim [[11]] 18 wherein [[the]] time periods in the calendar time management application are class periods.

20. (Currently Amended) The ~~article~~ device of claim [[8]] 15 wherein the attached file's association with the time management entry is indicated with a graphical icon in the application near the time management entry.

21. (Currently Amended) The ~~article~~ device of claim [[8]] 15 wherein [[the]] a user is able to

activate the application associated with the attached file and view the attached file by selecting the graphical icon.
